

## Help EPA Region 7 standardize GIS reviews of water quality documents

Project Title	Help EPA Region 7 standardize GIS reviews of water quality documents
Project Summary	Help Region 7 use GIS tools to their fullest potential and to document best practices for GIS tools in water quality document review. You will use your GIS expertise to ensure that water quality in Region 7 is protected.
Country	United States
Country/Region of Focus	United States

## Project Description

We are seeking an environmental specialist, scientist, or engineer with GIS expertise who would be interested in exploring best practices for GIS review of water quality documents, including Total Maximum Daily Load documents. Familiarity with EPA GIS programs like EnviroAtlas is preferred.

## Required Skills or Interests

### Skill(s)

Analytical writing

Data analysis

Data visualization

GIS expertise

## Additional Information

You will be part of a team of EPA scientists in the Water Division of the EPA Region 7 Office in Lenexa Kansas. We are looking for a scientist interested in learning more about EPA geospatial tools with familiarity with GIS and an interest in protecting water quality.
